

KINNAIRD COLLEGE FOR WOMEN

Policy Regarding COVID-19 Patients

June 11, 2020

The ongoing situation that has emerged owing to the Covid-19 pandemic has created difficulties for students who are affected from Covid-19 directly or indirectly. Kinnaird College Online Academic Council has in this regard approved the following policy for the clarity of all stakeholders including students, their parents and concerned faculty members. Teachers should accommodate such students, with some degree of diligence to make sure that the case is genuine.

1. A student who faces such medical situation must provide COVID-19 positive medical test report.
2. A student can miss up to 15 days of classes. All teachers are recording their lectures on MS Teams so students can view the recorded lectures after getting recovered.
3. The teacher can award average marks if a student misses an assessment i.e. quiz / assignment due to her illness.
4. On behalf of Kinnaird College we wish all such patients a good health and speedy recovery

This policy has been issued with the approval of competent authority.
